

Modern Stainless Ladders

Under the skilled hands of specialized German Artisans, we offer the world's most functional and creative architectural sliding ladders.

Based on the creative ideas of our Engineering Department and state of the art machinery and innovative CNC technology, we start our ground work.

But it is only under the hands of our carefully selected craftsmen that our stainless steel ladders attain their exclusive aura.

At Specialty Doors our goal is to assist you in every step of your planning process with friendly, knowledgeable guidance from start to finish.

The typical cost for a sliding ladder with 8' of rail and a ladder height of 8' is approximately \$3200 delivered.

Akzent SL.6005.AK

Our newly developed hook-in ladder SL.6005.AK is characterized by its exceptional design which for the first time features a striking combination of round and square profiles. The stainless steel stairs caress your soles while at the same time guaranteeing a completely safe ascent and descent.

Metro SL.6010

MWE's sliding ladder line represents the long awaited response to many customers' need for flexible and elegant solutions in special interior design scenarios. The SL.6010 sliding ladder model is available with wooden or metal steps.
